

### PRODUCT INFO

#### DESIGNATION

helivil ar 20 premium

#### PRODUCT CODE

350 236

#### MATERIALS

Flexible PVC with elastomer and reinforced with polyester yarn.

3D

## unsurpassed mobility at work

### Description

Flexible PVC hose, elastomer-additivated and reinforced with polyester wire. Produced with materials highly resistant to various chemicals, abrasion, and atmospheric agents. Good flexibility at low temperatures. Mainly used in compressed air applications, and can also be used in agricultural spraying.

#### Application Areas:

Compressed air conveyance systems at low pressure and in compressors with air pressure capacities up to 20.

Chemicals conveyance; Industrial use; Water conveyance; Compressed air.

#### Main features:

Flexible PVC hose with elastomer additive and reinforced with polyester yarn. This hose is produced with materials with good resistance to several chemical products, abrasion and atmospheric agents. This hose has also good flexibility at low temperatures.

#### Temperature:

-10/+55°C

#### Presentation:

**Colour:** Black interior and cover with a longitudinal blue stripe..

Available in lengths of 25, 50 and 100 metres.\*

**Note:** Other colours, diameters and lengths available upon request.

#### Marking:

**Heliflex** helivil ar 20 premium Ømm lote data

### TECHNICAL FEATURES

Lightweight; Flexible; Chemical resistance.

helivil ar 20 premium | **350 236**
